Education

Delta University

B.Sc. in Artificial Intelligence | Cybersecurity

2023 – 2027

Experience

Digital Egypt Pioneers Initiative (DEPI) – Egypt's Ministry of Communications and Information Technology (MCIT)

Front-End Development Trainee | 2026 – Present

- Developing responsive and user-friendly web interfaces using HTML5, CSS3, and Bootstrap
- Applying front-end development principles to build structured and responsive web pages
- Developing practical skills through hands-on projects, technical assignments, and team-based activities
- Strengthening knowledge of responsive design, UI implementation, web layouts, and user experience
- Developing professional skills in teamwork, communication, presentation, and time management

Projects

Adaptive Hybrid Continuous Behavioral Authentication System Academic Team Project

01/2026

- Developed a continuous authentication system using keyboard and mouse behavioral patterns.
- Applied Machine Learning and Isolation Forest for anomaly detection and real-time risk assessment.
- Designed 14 keyboard and 12 mouse behavioral features for user verification.

Honeypot System for Cyber Attack Detection and Analysis Academic Team Project

06/2026

- Developed a honeypot-based system for detecting and analyzing suspicious cyber activities.
- Analyzed attack patterns and security data to support threat detection.

Skills

- **Technical:** Programming Languages: Python, C#, C++, HTML5, CSS3
- **Artificial Intelligence & Machine Learning:** Machine Learning, AI Model Development, Neural Networks, CNNs, Anomaly Detection, Data Preprocessing, Model Training and Evaluation, Isolation Forest
- **Web Development:** HTML5, CSS3, Bootstrap, Responsive Web Design, Front-End Development, UI Implementation
- **Libraries & Frameworks:** PyTorch, TensorFlow, Keras, scikit-learn, NumPy, Pandas, OpenCV
- **Tools:** Git, GitHub, Visual Studio Code, Figma, Font Awesome
- **Language: English:** B1 – Intermediate
